LISTEN!

Next Saturday, Feb. 1st,
Afternoon and Evening

We will hold another auction sale at our store. We are determined to reduce our stock of Winter Goods. We cannot—we will not carry over a large stock into next year.

We realized after selling for two days by auction we are still overstocked, and we will give you another opportunity to get goods at your own price.

This will be our last sale of the season. It's up to you.

Re-Opening Services

The alterations and decorations to the interior of the Presbyterian church will be completed by the end of this week and special re-opening services will be held on Sunday.

The walls and ceilings of the church have been covered with beaver board and moulding, the board being painted in flat colors of light blue and green and with red hurlap on the wainscoting. All the woodwork is finished in dull oak. Altogether the church presents a neat and finished appearance and reflects great credit on those who have had the work in hand.

Special services will be held both morning and evening, the former at 11 o'clock and the latter at 7.30, at which special music will be rendered by the choir.

Sunday School as usual at 3.30 p.m. It is hoped that Rev. Dr. Grant of Toronto, Superintendent of Presbyterian Home Missions, and who is now visiting in the west, will preach at these services, but it is not known definitely whether he will be able to come or not just at present. If Dr. Grant is unable to be present some other noted speaker will fill the pulpit for these special services.

Mountain View Municipality

Proceedings of meeting of council of Mountain View Rural Municipality No. 310 held at Lone Pine P. O. on Saturday, Jan. 25th, 1913.

The meeting was called at 12 m. Reeve Pearson, Deputy Reeve Haderer, Councillors Francis and Johnson were present.

Moved by Haderer, seconded by Pearson, that the reading of the minutes of meeting held on Jan. 6th, 1913, be deferred. Carried.

Moved by Haderer, seconded by Francis, that the Reeve and the Treasurer be empowered to make a temporary loan up to \$1500 from any bank to pay any accounts now on hand, and are empowered to sign promissory notes as representing such advance. Carried.

Moved by Haderer, seconded by Pearson, that the account of the Didsbury Pioneer for election printing, amounting to \$24.50, be paid if certified correct by Returning Officer, M. McLean. Carried.

Moved by Haderer, seconded by Pearson, that the Reeve and the Deputy Reeve meet the Councils of Didsbury and Olds respectively with a view to arrange to have each town drag with a road leveler the main roads in the municipality approaching the towns, for a certain distance, on condition the municipality drag double the distance, such work to be done simultaneously when required by the roads. Carried.

Moved by Haderer, seconded by Johnson, that the Reeve be authorized to purchase six small wheel scrapers and four gravel plows. Carried.

Moved by Haderer, seconded by Francis, that Council adjourn to meet on Saturday, March 1st, 1913, at Lone Pine P. O. at 11 a. m. Carried.

Mr. J. H. Quirk has sold out the Golden West Hotel to the Calgary Brewing Co., who will take over the hotel this week. Mr. Quirk and his mother, Mrs. McPherson, leave next week for California.

AROUND THE TOWN

Mrs. (Dr.) G. M. Reid returned from her visit to Montreal on Thursday last.

F. B. Milestead of Victoria, B. C., is visiting with his sister, Mrs. H. B. Booker.

Mrs. Milton Moyer of Edmonton was visiting with Mr. and Mrs. H. Weber last week.

Mr. and Mrs. Frank Reek left for Rochester, Minn., on Thursday last for the benefit of Mrs. Reek's health. They expect to be gone for some time.

The many friends of Mr. Geo. Alden will learn with regret that she has suffered a relapse and is again very ill at her father's residence.

A school of agriculture will be held at Crossfield from Feb. 3rd to Feb. 8th under the auspices of the Fairs and Institutes branch of the Department of Agriculture.

Norman Weicker has sold his store building and lot on Railway avenue and his residence on Shantz avenue to Mr. V. Snyder. Norman will still conduct the butcher business.

Sol. Reiber, brother of H. Reiber, of Olds, has been appointed manager of the Didsbury Furniture Store business and will take over his new duties at the beginning of next month.

Talk about Sunny Alberta and the way we rush things. Mr. Theo. Reist has a Plymouth Rock with which he has a bunch of chickens in his barn on Monday. We believe this sets a record for early hatching in this district.

Don't forget the box social to be given by the High School Literary Society on Friday night in the school house. Proceedings will commence at 8.30 sharp. A fine programme will also be given by the pupils and an interesting time is looked forward to, so come to the soci.

Malcolm McLean of Neapolis brought a live gopher into our office on Saturday last. Mr. McLean caught it on the road to Didsbury and it was as lively as a cricket. What does this mean, some of you old timers, when you see live gophers in January? Is it a sign of early spring?

After the cold spell of two or three weeks it seems as though Sunny Alberta has again got back to the mild soft days that we so much enjoyed before Christmas and the temperature hardly reaches freezing point at any time through the day. Wonder if the bear will see his shadow on Monday next.

Rev. H. Goudie of the M. B. C. church was a visitor in Edmonton on Saturday, staying over for the anniversary of the Baulah Mission on Sunday and a Holiness Convention on Monday. The mission is being much appreciated by the people of Edmonton because of its rescue work amongst women and help for the needy. Miss Maud Chatham is superintendent of Baulah Mission and the Rescue Home, while Miss Minnie White is matron of the Rescue Home. It is to be hoped that these ladies will continue to receive the support and good will to which their work entitles them.

WE are getting more every day.
More what?
More satisfied coal customers, of course.

We have a few loads of good, dry Poplar stove wood, also some good 14 and 18 ft. poles on hand.

Mr. Eddie Ratkie last Sunday entertained several people from Didsbury and vicinity to a five course bachelor's dinner. Promptly at 2.30 the guests sat to partake of the many good things prepared under the supervision of the host. After dinner speeches and songs were the order of the day, Mr. Fred Enjel being toastmaster.

The first schedule of the season at the Curling rink was finished on Wednesday night of last week when the two victorious rinks of the two sections came together for the final competition of the series. The two rinks who played off were skipped by A. G. Studer and L. Kalbfleisch. The Kalbfleisch rink came out victorious by a score of 12-4. The new schedule was started at once and is now being played off.

Carstairs Hockey Team Snowed Under

Beat the drum slowly,
Play the life lowly.

Oh well, you know the rest of the old song, what is the use of repeating it. But it had to be sung on Saturday afternoon last when the Didsbury Branches went down to Carstairs and buried the Carstairs Cowboys under a score of 15-2 in a game called hockey. In spite of the hard playing of Barney Shields and E. E. Topliffe the Cowboys were unable to lasso, throw, hobble, or in any way hold down the Branches and the result was as stated and the Cowboys were buried.

The following are the names of those who participated in the slaughter:

Printer's Ink for a Black Eye

James Gordon Bennett had a way of appearing in the composing and press rooms of the New York Herald at the most unexpected times, and as his visits often resulted in a general shake up of the working forces of the paper, they were awaited with fear and trembling by employees.

On one of these occasions, one of the pressmen, an excellent workman who had been there under the elder Bennett, but was sometimes guilty of a lapse from sobriety, had a black eye and was in a quandary as to what excuse he should offer if Mr. Bennett should comment upon it. By a sudden inspiration, he seized an ink roller and dabbed some ink on his face, completely covering the discoloration.

Presently Mr. Bennett came into the pressroom and with the foreman, Mr. Hays, went through the room, commenting on every detail and looking very sharply at every workman. When about to leave, he suddenly pointed to the inky pressman, and said: Mr. Hays, what is that man's name? The man quaked in his shoes until Mr. Bennett said slowly: I want you to give that man three dollars a week more wages. He is the only man in the room who looks as if he had been working.

A Freak of Lightning

Lightning plays some peculiar tricks at times but we have never heard of anything to come up to the following, which the "Melbourne Age" properly labels "Extraordinary Incident."

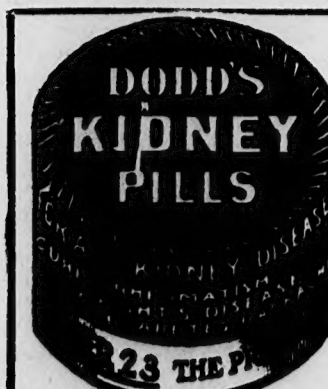

A young man while riding through the timber country at Willing during a recent storm had a remarkable escape from death in peculiar circumstances. A large tree directly in front of him was struck by lightning and split in halves. The horse he was riding, becoming terrified, started to plunge through the gap between the halves of the tree. At that moment the halves came together with a snap like a rabbit trap, and crushed off a length of the horse's tail, which can still be seen protruding from the tree. The young man received a severe shaking, but otherwise came through the ordeal safely.

In recalling war time humors, a veteran recently remarked that enlisted men stood by one another most handsomely.

Very ingeniously, too, he went on. I remember one day our captain—a regular—asked Sergeant Porter about his target practice.

How are your men coming along, sergeant? he asked.

Well, captain, said Porter, with an air of great pride, my men shot well today, very well, but they would have shot better perhaps, if the target had stood a little more to the left.

The Poor Blooming Driver

Mr. Pett Ridge, the well-known humorist, is telling an amusing story of two American ladies who boarded one of the old horse-omnibuses, and having settled down on the front seat on top, proceeded to bombard the unfortunate driver with questions about the places they were passing.

The driver reached the limit of his patience in Trafalgar Square. Look here ladies, he exclaimed, as he started his horses up the hill towards Charing Cross Road, that's the monument to Nelson, on the left, St. Martin's Church is here on the right. Farther on we pass the Garrick and Wyndham's, the back entrance to the Alhambra, and the Hippodrome; a bit higher up, if all goes well, the Palace; further on, we reach the Oxford and the Orse-shoe. Halfway up Tottenham Court Road, if Providence is good to us, we shall see Whitefield's Tabernacle, and not much then till we get to the Cobden statue. Higher up still the Britannia, and eventually the Adelaide, where we stop and go no further.

And, with a flick of his whip, this is the bus, them's the horses, and I am the poor blooming driver, and now you know pretty much as much as I do about it all.

Mr. J. L. Toole had a great antipathy to street music of any kind. About this there is a story told of him. The waits, one Christmas evening, played under his windows, greatly to his annoyance, and on the next day they paid him a visit.

We played under your window last night, said the spokesman of the party when they were shown into his presence.

Well, and what do you want? quoth the comedian.

We've come for our little gratuity. Come for a gratuity have you? exclaimed Mr. Toole. Bless me! I thought you had come to apologise.

The above illustration shows the magnificent terminal station of the Canadian Pacific Railway Co. at Vancouver. The building is now in course of construction, and it is expected that it will be at least two years before the work is completed. The estimated cost of the terminal station and wharf is in the neighborhood of \$2,750,000.00.

PALE ANAEMIC GIRLS

Find New Health Through Dr. Williams' Pink Pills for Pale People

There must be no guesswork in the treatment of pale, anaemic girls. If your daughter is languid, has a pale, sallow complexion, is short of breath, especially on going upstairs; if she has palpitation of the heart, a poor appetite, or a tendency to faint, she has anaemia—which means poverty of the blood. Any delay in treatment may leave her weak and sickly for the rest of her life—delay may even result in consumption, that most hopeless of diseases. When the blood is poor and watery, there is only one certain cure—that is Dr. Williams' Pink Pills, coupled with nourishing food and gentle out-of-door exercise. Dr. Williams' Pink Pills actually make new blood, which flowing through the veins stimulates the nerves, increases the appetite, gives brightness to the eye, a glow of health to the cheek, and makes weak, despondent girls full of healthy activity. The case of Miss J. H. Lassalle, Sorel, Que., is typical of the cures made by Dr. Williams' Pink Pills. She says: "I was weak and all run down. My face was pale and covered with pimples. My lips were pale. I suffered from pains in all my limbs, which would at times be swollen. I was hardly ever free from headaches and I found work about the house a burden, as the least effort left me fatigued and breathless. I had no appetite, and notwithstanding I seemed to be growing worse all the time. One day mother said that she thought I ought to try Dr. Williams' Pink Pills and I decided to do so. I soon discovered that I had found the right medicine, and after using nine boxes I was once more enjoying the best of health, and I have not been unwell a day since."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Use for His Strength

A good story was told by a theatrical manager which will be appreciated by all who have suffered inconvenience from the defective "rolling stock" on branch railway lines. In his early days the manager piloted a sort of variety show through the North of England.

At that time, he said, I was starring an Italian as "Blancall, the strong man from Rome." One day I was travelling from a small town in Northumberland to a smaller town just across the border. The strong man and myself were seated opposite a tall man with side whiskers. Whether the man overheard our conversation I am unable to say, but when we had gone a mile or two he leaned over and tapped my companion on the shoulder, saying: Excuse me, sir, but are you not Blancall, the strong man?

Blancall admitted the soft impeachment.

It is true that you can lift two and a half tons in harness?

Yes.

You can hold two men at arm's length?

I can.

And put up five hundred pounds with one arm?

Yes.

And seven hundred pounds with two?

Yes.

Then, concluded the man with side-whiskers, would you kindly raise the carriage window for me?

Getting 'em for the Kernel

Some time back a certain colonel's gardener was going through the woods belonging to his employer, when he saw a man busy gathering nuts.

As the colonel had given strict orders that no one was to be allowed to pick the nuts that year, as had hitherto been the case, the gardener said to the man:

You'll have to clear out of this; I've got orders to keep all those nuts for the colonel. He wants them for Christmas.

It's all right, replied the man; that's what I'm getting 'em for.

Satisfied by the answer, the gardener passed on.

Meeting the same man a week after the occurrence he said:

Look here; you were not getting those nuts for the colonel at all.

I tell you I was, was the emphatic reply.

But I know better. The colonel told me that he gave neither you nor anybody else any authority.

Well, I know jolly well I was getting them for the kernel; I didn't want the shells.

The small boy in the audience watched the classic dancer in her barefooted poses.

Where are the lady's stockings, mamma? he asked in a clear little voice.

Hush dear, I don't know, the embarrassed mother replied.

Maybe she hung 'em up for Christmas, said the small boy in a still louder voice.

It Grows Hair

Here are Facts We Want You
to Prove at Our Risk

In all our experience with hair tonics
there is one that has done more toward
gaining our confidence than any other.
We really believe this remedy, known as
Rexall "83" Hair Tonic, is so superior
to other preparations that we offer it to
you with our personal and unqualified
promise that if you use it and it doesn't
prove in every way satisfactory to you,
we will, upon your mere request at our
store, return to you the money you paid
us for it.

Rexall "83" Hair Tonic acts scienti-
fically, destroying the germs which are
usually responsible for baldness. It acts
to penetrate to the roots of the hair,
stimulating and nourishing them. It is
a most pleasant toilet necessity, is deli-
cately perfumed, and will not gum nor
permanently stain the hair.

We want you to get a bottle of Rexall
"83" Hair Tonic and use it as directed.
If it does not relieve scalp irritation, re-
move dandruff, prevent the hair from
falling out and promote an increased
growth of hair and in every way give
entire satisfaction, come back and tell us
and get your money back. Two sizes,
50c and \$1.00. Sold only at our store---

H. E. OSMOND, Proprietor.

DURING the last few weeks we have been giving reasons why
Didsbury should have a Board of Trade or some such organ-
ization to look after its exterior as well as interior welfare, and we
again wish to bring another matter before the attention of our resi-
dents. Last summer a great deal of indignation was expressed, and
rightly so, because the telephone department had built a telephone
line some miles south of the township line in the Didsbury district,
both east and west, and connected them with Olds instead of Dids-
bury, thus causing this town to lose some hundreds of dollars every
year. It is understood that this was done through the influence of
Olds business men and their M. P. P. Now our member was ap-
proached on this matter but was unable to accomplish anything,
and why, because we did not stick together and back him up for
one reason, and give the department to understand that the people
of this town were united in looking after its welfare. If we had
some organization to look after such matters as these we could ac-
complish something. As it is we are thinking too much of our in-
dividual selves and consequently losing business which is rightly
ours because we will not spend a little time or a few dollars to
bring in more dollars or to make the town worth living in. Think
this over.

Boys for Employ- ment

The Department of Neglected Chil-
dren have at the present time a num-
ber of boys ranging in age from 14 to
17 years for which they are very an-
xious to secure work of some descrip-
tion. Farm homes will be given first
consideration.

Those desirous of employing boys
between these ages should communi-
cate with the Superintendent of Neg-
lected Children, Cre it Fonce building,
Edmonton, and complete de-
scription of boys will be given.

Some ten or twelve of these lads
are available at present time and
should make capable boys for farmers
and ranchers requiring help in their
work.

Wonderfully Improved

True to promise, the publishers of
The Family Herald and Weekly Star
of Montreal have vastly improved that
already great paper during the past
few months. It is said several new
editors have been added to the staff,
and still greater improvements are
contemplated. The beautiful picture,
"Mother's Treasures," is in great de-
mand. Everyone who sees it wonders
how such a picture can be given with
such a great paper at one dollar a
year. It is the best dollar's worth to
be had, and those who miss it will
regret it. Old subscribers should see
that their renewal subscription is sent
at once to guarantee the picture.

Why Hesitate

An Offer that Involves No Risk
for Those who Accept It

We are so positive our remedy will re-
lieve constipation, that we offer to fur-
nish it free of all cost if it fails.
Constipation is caused by weakness of
the nerves and muscles of the large in-
testines or descending colon. To expect
relief you must therefore tone up and
strengthen those organs and restore them
to healthier activity.

We want you to try Rexall Orderlies
on our guarantee. They are eaten like
candy, and are particularly ideal for
children. They act directly on the nerves
and muscles of the bowels. They have
a neutral action on the other organs or
glands. They do not purge or cause
any inconvenience whatever. They act
to overcome chronic or habitual consti-
pation and the myriads of associate or
dependent chronic ailments. Try Rexall
Orderlies at our risk. Two sizes, 10c
and 25c. Sold only at our store---The

HAUNTED

BY
GERTRUDE WARDENAuthor of "Dancing Leaves,"
"The Sentimental Sex," "The
Crime of Monte Carlo,"
etc., etc.WARD, LOCK & CO., LIMITED
London, Melbourne and Toronto(continued)
Why can't they leave her in peace?
exclaimed Lillias. Someone seems
always tormenting her.She was exercising the greatest
self-control that neither Harry nor
Lady Anne might guess how deeply
she suffered over their engagement.
The girl had hardly known how much
she had thought of Harry until she
found she had lost him. It had been
if not love, at least the imagination
taken captive at first sight. In her
eyes Harry always appeared in her-
oic garb. His gallant rescue when
her horse ran away with her, his
spirited conduct with her uncle, his
gentleness towards her when the
thunderstorm had terrified her, and
even his offer of marriage to Lady
Anne in the teeth of Reuben's foul
accusations, all appeared to Lillias
romantic and admirable. If the truth
be told she liked him none the less
for the trick she imagined he had
played upon her in the chapel. She
might tell herself that his conduct
was cruel and ungentlemanly, but at
least it argued an immense admiration
for her and she had been surprised
and disappointed when he had not fol-
lowed it up by a declaration of love
the next day.In her inmost heart she cherished
the belief that he would have done
so but for the combination against
her of Lady Anne's charm and of her
defenceless position. In secret, Lil-
ias shed bitter tears over Harry's sup-
posed desertion, but she was too un-
selfish and too sensible to cherish
harsh feelings against him or against
Lady Anne.Harry was a Clavel, she told her-
self; therefore he could not remain
faithful to one woman. And Lady
Anne was a witch. But she loyally
loved them both.Harry, who had no suspicion of the
kind of affection she felt for him,
found her society soothing and deligh-
ful, and the time all too short that he
could spend with her before repairing
to the station for the last train.Two days without Lady Anne seem-
ed a lifetime to him.He did not wake the next morning
until half-past ten o'clock, and at the
thought that he would not be able to
see Lady Anne until the following
afternoon he felt no wish to get up.At eleven o'clock his breakfast was
served to him in his own room, as he
had engaged a suite at the hotel for
comfort and privacy. Sunday at a
London hotel on a close, stifling day
in July, under a heavy grey sky, is
not cheering. He could at least
write to Lady Anne, and after the
breakfast things had been removed he
was sitting down at an escritoire, pen-
ning the beginning of his first real
love letter, when a waiter entered
with a message that a lady had arrived
and urgently requested an immediate
interview with him.Beauty Purity

shall I show her up, sir? the man
asked. She gave her name as Lady
Anne Daubeney.CHAPTER XLIV
Three VisitorsAnne! Is it possible?
She had become in his mind so
much a part and parcel of her pictu-
resque surroundings of elm-tree woods
and moss-grown walls and old-fash-
ioned furniture, that she seemed out
of place in this smart new hotel of
brand-new fittings and endless electric
contrivances.Far too beautiful and too singular
in appearance, too, she seemed, to be
wandering about London alone, al-
though her gown of white embroidered
linen under a loose white serge
coat, and her shady white straw hat,
were simplicity itself.She gave him her hand, and tried
to smile as she took the seat he of-
fered her and threw back her long
gauze veil.How did you come? Harry asked.
There are hardly any trains on Sun-
day.I took the seven o'clock, and drove
from Waterloo. I had to see you.
I felt—very nervous and anxious.About whom?
Oh, several people, she answered
vaguely. Have you seen or heard
anything of Mr. Symonds?Not since I left him at Crayborne
station at eight o'clock last night. How
could I?No, of course not!
She began to fidget with the leaves
of a time-table which lay on the table
before her.So you saw him off at the station?
she said suddenly.Yes; and when I called at the Ab-
bey last night I wished to tell you
of something. The train Reuben
went by had very few passengers.
It came from Dorchester, as you know.
Three men besides Reuben got in at
Crayborne. One of them was that
fellow in whom you take so wonder-
ful an interest—Sammy, the so-called
idiot.Lady Anne uttered a sharp cry, and
her face became blanched with fear.
Harry! she gasped. It can't be
true!Why not? he asked. He only took
a ticket to Bloxham, and the porter
told me he often goes there.Lady Anne, who had half-risen from
her seat, sank back upon it and seem-
ed lost in thought.In the interval, during which Harry
watched her in silence, there was a
tap at the door and a waiter entered
bearing a card on a tray.Harry read the name upon it and
frowned.Are you certain he asked for me?
he inquired.Yes, sir. Mr. Henry P. Clavel-
worth from America, he said, and that
his business with you was most ur-
gent.I cannot see him just now—Harry
was beginning when Lady Anne cut
him short.Who is it? she asked.
Police-Inspector Lucas. Hutchins
from Bloxham. I haven't the least
idea what he can want with me.Pray have him shown up at once.
In your presence?

Certainly.

The waiter left the room after Har-
ry had given the order. Lady Anne
drew down her gauze veil, and clasp-
ed her hands in her lap. Neither she
nor Harry uttered a word until the
door of the sitting-room opened again
to admit a fresh-colored, broadly-built,
bearded man of about forty, with alert
grey eyes.Mr. Clavelworth? he asked.
Henry Payne Clavelworth is my
name.Have you a cousin called Reuben
Symonds of Melbourne and Liver-
pool?Yes.
May I ask when you last saw him?
Certainly. I parted from him at
eight o'clock last night at Crayborne
station and saw him get into the train
for Waterloo.You did not travel by that train,
sir?No; I left two hours and a half
later, as I had a call to make at the
house of this lady, who is engaged to
be married to me, Lady Anne Dau-
beney.Lady Anne made a quick gesture of
surprise.Harry had his own reasons for be-
ing so communicative. He guessed
already that the man was the bearer
of bad news, which would in some way
affect the woman he loved. And he
was resolved to make her position
perfectly clear beforehand in the eyes
of a representative of the law.The inspector made a stiff salute
in the direction of the lady, towards
whom he glanced with evident inter-
est. It was impossible to reside in
Bloxham without having heard of
Lady Anne Daubeney.I am sorry to tell you, sir, he went
on, that your cousin never reached
London. At a little after seven
o'clock this morning his body was
found by a shepherd behind some
furze bushes close to the railway line
about two miles out of Bloxham.His body found? Do you mean to
say he was dead?Yes, sir. From the nature of his
injuries death must have been instan-
taneous. The poor gentleman must
have been lying there a good eleven
hours.

A Bad Guess

A worthy old Edinburgh professor
was invited to a Christmas dinner at
the house of a lady of fashion.When the company rose from the
table the professor noticed, to his great
consternation, that he was unsteady
on his feet.In his anxiety to save appearances,
he repaired to the drawing-room
where the lady of the house yielded
to the wishes of her lady friends, and
ordered the nurse to bring in the baby
twins. In due course the little dears
reached the professor.The latter gazed intently at them
for a while, as if deciding whether or
not there were two or one, and then
said, huskily: Really, what a bonny
little child.

THE PANAMA POLICY

SENATOR ROOT ATTACKS STAND
TAKEN ON QUESTION

is Vigorous in His Denunciation of Attitude of the United States in the Canal Controversy—Refusal to Arbitrate would Proclaim Country Indifferent to National Honor.

Washington.—Shall we inform the world that the United States is false to its agreements, false to its pledged words. Shall we have it made known to the world that you must look out for the United States, or it will get the advantage of you? That it is astute, cunning, slippery?

With this vigorous denunciation of the attitude of this country in the Panama canal controversy with Great Britain, Senator Elihu Root closed a two-hours' speech in the senate with an appeal for the submission of the Panama question to arbitration, or the repeal of that section of the canal law that would give free passage to American coastwise ships.

Speaking from the experience of a member of President Roosevelt's cabinet when the Panama canal zone was purchased, and when over 25 arbitration treaties were made with foreign nations, Senator Root delivered the most vigorous attack on the present attitude of the United States that has been heard since the Panama controversy arose.

It became known, following the senator's address, that Senator Brandegee, chairman of the Inter-oceanic canals committee, will call a meeting within a few days to take up Senator Root's amendment for the repeal of the free-toll provisions. Led by Senators Root and Brandegee, both of whom opposed the original passage of this provision, a determined effort will be made at this session of congress to change the law before it goes into effect at the canal, so that the cause of the dispute with Great Britain will be removed.

Senator Root declared the United States would violate all of its pledges and promises to the world; would be guilty of false pretences in its advocacy of general arbitration, and would proclaim itself indifferent to national honor and integrity if it refused to submit to arbitration or to retreat from the unjust position it had taken.

He declared free coastwise tolls to American ships were illegal, unless the same concessions were made to foreign ships. The claim that the United States had domestic rights over the canal, because it owned the canal zone, constituted a violation of the express guarantee of the United States to Great Britain, he said.

It is not our territory except in trust, he declared. Treaty or no treaty, we have long insisted that the nations of Central America had no right to debar the world from its right of passage across the isthmus. Upon that we based the justice of our entire action, which resulted in our having the canal zone.

The United States had preached arbitration for years. Senator Root declared, and had besought the nations of the world, in season and out of season, to enter into arbitration agreements for the settlement of all disputes.

Are we Pharisees? he cried. Have we been insincere and false? Have we been pretending in all these long years of declaration? Are we ready now to admit that our country, through its presidents and congresses, has been guilty of false pretences, of humbug, of talking to the galleries, of uttering fine words to secure applause?

The instant that an interest is at stake, we propose to falsify every declaration, every promise, by the arrogant insistence that we alone can determine the interpretation of this treaty; that we will refuse to abide by the treaty.

And is the game worth the candle? Is it worth our while to remain in a position, to maintain which we may be driven to repudiate our principles, our professions, and our agreements, for the purpose of conferring a money benefit at the expense of the treasury of the United States on the most highly and absolutely protected industry in the United States—our coastwise shipping?

New Zealand Ready

Wellington, N Z.—In consequence of the public utterance of so great an authority as Admiral Kinghall favoring a Pacific fleet, composed of divisions from the Dominions whose shores are washed by that ocean, the Premier, Mon. W. F. Massey, has taken occasion to emphasize the position of New Zealand. He declares that the Southern Dominion stands straight for the principle of a British fleet in the Pacific under imperial control and adds that if the call should come, and he anticipates it—it would find New Zealand ever ready to answer.

When the Canal Opens

London.—In order to cope with the demands which will be created by the opening of the Panama Canal, Colonial Secretary Harcourt stated in the Commons that the Government of Jamaica were negotiating with a Canadian syndicate for the provision of better facilities for coaling, docking and repairing ships. A site has been secured abutting Kingston harbor, and harbor improvements were also under way for Trinidad, Port of Spain, and St. George, as well as oil bunkering stations for Barbadoes and at St. Lucia.

BAY TERMINAL STILL IN DOUBT

Actual Superiority of Port Nelson is
not yet Finally Established

Ottawa.—Notwithstanding earlier statements to the contrary, one of them made by Hon. Frank Cochrane himself, that Port Nelson had been finally determined upon as the terminus of the Hudson Bay Railway, a decision in this terminal question will not be reached until the report of H. R. Hazen, chief engineer of the road, has been received and considered. This information comes from the Department of Railways.

Mr. Hazen, who has been investigating conditions at both Port Nelson and Fort Churchill since last July, is now on his way to Winnipeg, and from Winnipeg he will come direct to Ottawa. He is expected here in about a month.

At the department it is stated that though Mr. Cochrane had declared Port Nelson to be the choice, he is still open to conviction in favor of Fort Churchill if the results of Mr. Hazen's first hand expert investigation should be such as to warrant a change.

From the standpoint of cost of construction Port Nelson is understood to have the advantage over Fort Churchill as a terminal possibility, but the question as to the superiority of harbor facilities at the two points seems to be in some doubt.

It is generally understood here that so far construction upon the bay line has been very slow. Weather conditions and other obstacles have been making trouble.

Business in Southern Alberta

Leithbridge, Alta.—The lumber interests of British Columbia have been making extensive plans to invade the Southern Alberta and Saskatchewan territories, and the announcement is made that the Middle West Lumber Co. of Vancouver, of which Mr. Heap, the Vancouver millionaire is the head, has bought the yards and interests of David McMillan, at Warner, involving \$25,000, and also another yard at Maple Creek, Sask. The company contemplates establishing still another yard at Macleod this spring if business there warrants.

Blairmore is to have a \$10,000 brick bonded warehouse, two stories in height, with concrete basement, and equipped with two large elevators, operating from basement to the top story. Work is to commence at the opening of spring, and the building will be ready for occupancy by May 1st. It will be the only modern bonded warehouse in the Crows' Nest Pass. Murphy & Frayer Co., Limited, are behind the project, and the site chosen is close to the C.P.R. tracks.

The Magrath creamery is to be opened early in February, and an expert butter maker has been arranged for through the Dominion government agricultural department. The creamery has first class machinery, but there has not been a sufficient milk supply to warrant an earlier opening of the plant. There is now a visible increase in milk in sight, due to the increase in mixed farming in that vicinity, and the company has harvested a large supply of ice for next season's business. John J. Gibb has been elected president of the association and I. C. Fletcher secretary-treasurer.

DEFENDS U.S. NAVY

Remarks in Canadian House Arouses

Comment in Washington
Washington, D.C.—Great indignation has been created in Washington by the speech of Major Sam Sharpe, in the House of Commons at Ottawa, to the effect that few native Americans sign for the navy, and that those who do are desperate, no good socially, morally or otherwise, and finally that the navy becomes a home for degenerates and moral degenerates and deserters from foreign ships.

The speech of Major Sharpe was the topic of conversation in the Army and Navy Club, where the members were vigorous in characterizing Major Sharpe as either uninformed or else malicious. Admiral Dewey, hero of Manila Bay, took occasion to say that the men of the United States navy were of the highest character, morally and physically, and that they were a credit to the United States.

The report for the last fiscal year shows that 96.25 per cent. of the men in the American navy were American citizens, and 90.20 per cent of all the enlisted force were American born.

Big Rate War May be Declared in
Which C.P.R. is Interested

New York.—A special Berlin cable to the American says: A rate war eclipsing all former ones may be declared between the North and South Trans-Atlantic steamship ports in consequence of immigrant line concessions given by Austria to the Canadian Pacific to be operated in competition with Austro-American Line out of Trieste. The scheme of the C.P.R. it is said is to throw every month 20,000 Austrians, Servians, Turks and Montenegrins into America via Montreal, thence by rail to Toronto and the West, as soon as the Balkan situation is cleared.

Object to Sample Market

Calgary, Alta.—At the annual convention of the United Farmers' of Alberta, representing 14,000 farmers of Alberta, a resolution was passed unanimously protesting against the establishment of a sample market in Western Canada.

YIELDS TO THE VICTORS

OTTOMAN EMPIRE DECIDES TO
ACCEPT PROPOSALS

Grand Council Finally Agrees to Demands of the Allies in Order to Secure Peace—Question of Indemnity Yet to be Settled, and there may be still Weeks of Negotiations.

Constantinople.—Turkey has submitted to the will of the powers. The Grand Council for the Ottoman Empire decided in favor of accepting the proposals of Europe for a peace settlement between Turkey and the Balkan allies.

The Grand Council approved the Government's point of view, declared its confidence in the sentiments of equity voiced by the great powers, and expressed the wish to see their promises and proposed assistance effectively realized.

It also asked the Government to exert all its efforts to ensure in the future the safety of the country and the development of its economic interests.

One crucial point of difference remains to be settled on the question of indemnity. The allies propose to levy a heavy payment on the defeated nation. They speak of \$200,000,000 as an adequate sum. Their minimum is an amount equal to the Turkish debts attached to the territories which they will annex under the treaty.

The Turks are likely to contest the indemnity strongly, and the bankrupt condition of their country furnishes them with a potent argument for an appeal to the powers. The negotiations over the settlement of minor questions and for the taking over of the conquered provinces will occupy a considerable time and it will be some weeks before the treaty is signed.

M. Novakovich, the ex-premier of Serbia, said:

The Turks seem finally to have recovered the faculty of reasoning, but why today instead of six weeks ago, as they must pay for what our six armies have been costing us all this time? We have not yet set down figures for the indemnity but we have practically decided on what basis it is to be calculated and how it is to be divided among the allies.

Each Balkan state will take as a basis the number of soldiers it put in the field, averaging the cost of each soldier during the time the country was on a war footing.

The sooner Turkey concludes peace, the less she will have to pay. The powers must help us in this question also, as the indemnity will be to pay the share of the Ottoman debt setting upon us proportionately to the territories we acquire.

Dr. Daneff, head of the Bulgarian delegation, expressed satisfaction when congratulated on the probable peace settlement, but he was of the opinion that the negotiations would drag along for several weeks more.

READY MADE COLONY SCHEME

Suggested to Form a Complete Colony
in New Ontario for Blind Alley
Workers

London.—During the last two years there have been outlined possibly a dozen schemes to colonize New Ontario, originating in this country. Most of them have come to nothing, probably for the reason that those who advanced them failed to grasp the difficulties to be overcome.

The latest scheme put forward is to acquire a tract of land in that district; get all the rough work done by contract, and settle a colony of young men of 18 or so under superintendents thoroughly familiar with conditions there. It is proposed to form at one step a complete township with church, doctor and all the requirements of a new settlement.

Prominent educationalists are taking the matter in hand; men who believe that we have in our blind alley workers a problem of first importance. It is said that in London alone there are 100,000 youths working as golf caddies, messengers and at similar work which does not offer a future.

HELEN GOULD HAS SIMPLE WEDDING

Famous Philanthropist Becomes Bride
of Finley J. Shepard

New York.—In the presence of seventy five relatives and friends gathered in the spacious and flower-decked parlor of Lyndhurst at Irvington-on-the-Hudson, Miss Helen Miller Gould, daughter of the late Jay Gould, admired or beloved by thousands of persons whom she has befriended, became the bride of Finley J. Shepard, eastern representative of the Missouri Pacific Railroad, whom she met in the exciting moments of a railroad wreck.

Simplicity was the dominant note of the wedding ceremony, and the great house, which might have been crowded with friends, who would have been glad to have honored the bride, gave admission only to the limited number of relatives and most intimate friends.

Following the wedding, Mr. and Mrs. Shepard remained at Lyndhurst, and will be there for a week, after which they will reside in New York until early in February, when they will leave for a tour of Europe.

Geneva.—Swiss prisons are so overcrowded that in three cantons convicts have had to be lodged in the cellars of the town halls.

IMMIGRATION FROM FRANCE

Report of Oliver Asselin's Investigation
Tabled in House

Ottawa.—A report on French and Belgian immigration by Mr. Oliver Asselin, who investigated at the instance of the minister of the interior, was tabled in the house by Hon. Dr. Roche. It is a very lengthy document in French, in which Mr. Asselin reviews the situation in France and Belgium. He criticises severely some of the immigration literature as being very poor translations of the English original, and recommends the re-organization of the immigration agencies in both France and Belgium.

With a good system of locating agents in those countries, Mr. Asselin believes that Canada can get thousands of desirable farm immigrants well able to shift for themselves. In Belgium at present the economic conditions leave much to be desired and the country in time will find it hard to take care of its population. The situation in France and the customs of the people there are different, but Mr. Asselin sees no reason why a properly directed campaign should not induce a large influx to Canada, more especially to the province of Quebec. He criticises at length the administration of the immigration offices of Canada in Paris and advocates its complete reform as absolutely essential if tangible results are to be expected.

MAY OWN HISTORIC SPOTS

Premier Declares in Favor of National
Ownership of Famous Sites

Ottawa, Ont.—That there has already been some consideration of a large scheme by which historic spots throughout both eastern and western Canada should become national property, as one means of marking the centenary of peace, was intimated by Premier Borden in receiving an eastern Ontario deputation, which asked the government to take over the remains of old Fort Malden at Amherstburg on the Detroit river.

The Premier pointed out that in addition to the more generally known historic spots in eastern Canada, there were also others in western Canada that, in days to come, would have added significance, and that now was the time when action to the end of acquiring them would be wise. He expressed his sympathy with the idea of preserving as an object lesson to future generations, the places where historic happenings had taken place.

Use Defective Wheels on Passenger
Trains

Ottawa.—That railways are running on passenger trains locomotives that are defective, is declared in a bulletin just issued by the railway commission.

The board has issued a circular to those in charge of motive power on the railways, urging upon them the importance of ensuring a change of wheels on locomotives before the flanges are badly worn. The board's inspectors are reporting quite a number of locomotives in service with sharp flanges on wheels of both locomotives and tenders—flanges in many instances, it is stated, being worn down to and below the master car builder's standard allowance gauge.

Some of these locomotives are running on the fast passenger trains and while it is understood that freight cars and locomotives may sometimes be found with flanges on wheels in the condition described, it does not seem reasonable nor safe, it is said, to allow locomotives in service with wheel flanges worn so badly that they would not be accepted on cars at interchange points.

BIG IMMIGRATION EXPECTED

Bruce Walker Predicts This Year Will
Break All Records

Winnipeg, Man.—Western Canadians, 12,250 in number and expending \$300 each, or a total of \$3,675,000, crossed the Atlantic for Great Britain and Europe this last holiday season, according to official figures compiled by J. Bruce Walker, commissioner of immigration here.

Through the agency of this vast army of immigrant emissaries, and through the redoubled efforts of the department of immigration, Mr. Walker expects to see all records for immigration broken this year.

Speaking on the immigration outlook this year, he said:

In view of all the circumstances, therefore, we are justified in predicting a very considerable increase in the number of immigrants entering Canada this year from Great Britain, Europe and the middle and western states. In fact I look for the largest volume of immigration this year that the movement has ever known.

Dreadnought for Britain Ordered by
Malay States

London.—The superdreadnought the Malay States are presenting the British navy, will be ordered immediately and construction finished as quickly as possible. She will be christened H.M.S. Malay; her displacement will be about 29,000 tons, a considerable advance on the Orion class and her main armament will consist of eight of the new fifteen inch guns and a particularly strong anti-torpedo armament, placed in armored positions.

Restoring the Cathedral

London.—A fund is being raised for the restoration of Lincoln Cathedral, and already \$11,500 is available. The ringers' chapel has been restored, and the bells have been improved.

THE SUNDAY SCHOOL

LESSON V.—FIRST QUARTER FOR
FEB. 2, 1913

Text of the Lesson, Gen. vi, 9-12; vii, 11-24—Memory Verses, Gen. vii, 12-14—Golden Text, Rom. vi, 23—Commentary Prepared by Rev. D. M. Stearns.

In the end of chapter iv we see the descendants of Cain getting on in the world, building cities, inventing musical instruments, working in brass and iron and improving things generally, but not with the blessing of the Lord, nor any acknowledgment of Him. The outcome of such disobedience is seen in chapter vi, v. 12: All flesh had corrupted his way upon the earth. In chapter v we see the line of Abel or Seth, who took Abel's place as a progenitor of the race, but there is nothing written of any of them on the line of world improvement. It is written of Enoch, the seventh from Adam, and of Noah that they walked with God, (Gen. v. 22, 24; vi, 9), but what it cost them to do so and the worldliness which they condemned by their lives and their testimony may be inferred from Jude 14-16 and Heb. xi, 7.

So it went on, the godly few and the ungodly crowd, for about 1,600 years until the time of our lesson, when God saw that the wickedness of man was great in the earth and every imagination of the thoughts of his heart was only evil continually. He was therefore compelled to change His method with man, remove the race from the earth and begin anew with Noah and his family. God never repents in the sense of changing His mind about anything, for "known unto God are all His works from the beginning of the world" (Num. xxiii, 19; Acts xv, 18). We change our minds and then act differently. God at certain times, before appointed, takes a different line of action, but always knew that He would.

These turnings in His mode of procedure are spoken of as His repentings (chapter vi, 6). Nothing has ever taken place on earth or eve, will take place that God has not foreseen from all eternity and prepared for, and the end He has in view He will surely reach in His time and way in spite of the devil and all his demons and his hosts of human followers. As it was in these first centuries so it has been ever since and will be till the kingdom comes. The world lieth in the wicked one, who is the prince and god of this world. In matters political, commercial and religious he is the leader, and the crowds unconsciously follow him.

Those who believe and follow Jesus Christ are about like Noah and his family compared with the multitudes. This ark which Noah built was to preserve all who were in it. Jobbed's ark was to preserve the babe she placed in it. The ark—the covenant was to preserve the tables of testimony. These are the threearks of Scripture and all suggestive of our Lord Jesus Christ, in whom alone there is safety. As in the story of Cain and Abel, he who accepts God's way is accepted, but the rejector is rejected. The people who helped Noah to build the ark knew all about the ark, but all perished who were not in the ark. A good knowledge of the Bible will not avail, nor a knowledge of God's plan of salvation nor a knowledge about God and Christ. The sinner must receive Christ or truly come to Him and take refuge in Him. God Himself and He alone was the architect of Noah's ark and of Moses' tabernacle and of the temple of Solomon. They had only to go by the plan. Salvation is of the Lord from start to finish, and the only thing we can do and that God asks of us is accept what He has provided without question. Notice the great invitation in chapter vii, 1: Come thou and all thy house into the ark.

The Lord must therefore have been the first in the ark, and then He called Noah and his family to come to Him. He said concerning Israel: I brought you unto myself (Ex. xix, 4), and His word to us is ever: Come unto Me (Matt. ix, 28). Make a study of His "comes" from here to Rev. xxi, 17. In chapter vii, 16, note that the Lord shut him in. How safe, how restful, shut in with God! We cannot but think of the words: Your life is hid with Christ in God (Col. iii, 3). More than a full year was he shut in (compare chapters vii, 1; viii, 13, 14), but the Lord was with him, and that is true prosperity (Gen. xxxix, 2, 3, 21-23).

The perishing of all people and of all living creatures on the earth (vii, 21-23) points us on to 11 Thess. 1, 8, where we read of vengeance on them that know not God and that obey not the gospel of our Lord Jesus Christ when He shall come to be glorified in His saints. He Himself has told us that when He shall come in His glory as the Son of Man the condition of things on earth shall be as in the days of Noah and of Lot (Luke xvii, 26-30). Not when He comes to the air for His church, though things will be bad enough then, are even now, but when He shall come in His glory, bringing His church with Him, according to Col. iii, 4. We are nowhere taught that the world will be converted before He comes again, but that He will come to a world in rebellion and angry because of His coming (Isa. lxvi, 15, 16; Rev. 1, 7; xl, 18).

FARM IMPLEMENTS

Necessity of Makers of Canadian Machinery Attending to Western Trade

Implements, implements, implements everywhere and none under cover! This strikes a person at almost every station in the vast agricultural area of the West. Where does all this machinery come from? When the Made-in-Canada train was at Regina, Mr. T. H. Race, the official lecturer, accompanied by the Secretary of the Board of Trade visited the various implement yards and made an estimate of the value of machinery awaiting distribution. Here is what they found:

American implements \$2,000,000.00
Canadian implements 50,000.00

Enormous Trade

A booklet issued by the Regina Board of Trade says: "Regina is the largest point of distribution of agricultural implements in the world." In view of this statement the above figures are even more significant, in that they probably represent the relative expenditures on American and Canadian machinery throughout the West. At every stop of the Made-in-Canada train the percentage of American implements was very large. Typical of numerous stations along the line may be mentioned the sign of an American firm prominently displayed over a yard of farm machines at a new settlement west of Maple Creek. The town was born only this year, but its principal trade, so far, is the distribution of farm machinery. The enormous revenue in the West from agricultural machinery is illustrated by the Secretary of the Regina Board of Trade who stated that last year \$35,000,000 worth of implements was delivered from that point, the freight and customs paid being \$12,000,000.

Hint to Canadians

The agents for United States manufacturing concerns are selling farm machinery in car load lots in many towns, which indicates that the Canadian manufacturer of implements is not taking the proper advantage of his opportunity. In this connection the Telegram adds: "The Canadian manufacturer is blind to the necessities of Western Canada and the signs of the times if he does not realize that it is his duty to get into the West with branch factories and offices and end the supposition of undervaluing to maintain long distance control of the Western Canadian market. The time has passed when a manufacturer having his office at London, Hamilton or Toronto can hope to do a large business through the medium of agents against the aggressive methods of American manufacturers. He must get into the West, establish branch factories and sell the machinery on the spot."

Hon. George Lawrence Explains What Manitoba is Doing in That Direction

"Our crop prospects were never brighter," said Hon. Geo. Lawrence, Minister of Agriculture for Manitoba, in the course of an interview. "This is my thirty-fifth year in the province and I never saw a better outlook. The wheat trade in southern Manitoba is about the same as former, but in the north it is only a day and a half have been down. Wheat is the wheat average of the province is not quite as large as in 1911, but is satisfactory in the north. It indicates more money coming into the farmers must get a better price if agriculture is to be a permanent industry. Appreciate the importance of dairying as a stock raising and the great possibilities that are in the west for the development of these industries, the Agriculture Department of the province is sending out two demonstration trains, one of which will pass over every mile of the C.P.R. track in the province, and the other over every mile of the C.N.R. These trains will be manned by professors of the Agriculture College of a staff of fifteen to each train of eight cars, and will carry horses, cows and poultry of the best breeds. These exhibits will be used to give lessons in stock raising to farmers all along the route. There will also be instruction in dairying, household economy, the testing of milk, the manufacture of butter and the destruction of weeds. Last year we ran a train over the C.P.R. lines, and so successful and productive of good results was the experiment that we decided to extend the train this year to the entire province."

Trees in the West

One thing that the settler misses in certain parts of this gently rolling prairie is the tree. However, in an other ten years' time even this will not be missed for we are conducting extensive experiments with many varieties of trees with a view to filling out those most adapted to the district.

Westcott News

Mr. John Finlay has gone to Edmonton for a few weeks' visit to his brother Will.

Mr. and Mrs. Robertson spent Sunday with Mr. and Mrs. Wilson.

Mr. and Mrs. E. B. Hunsperger visited at T. A. Murphy's on Sunday.

The ladies of the Garfield district served the band boys with a tasty lunch at their last practice.

The new band furnished some of the music at the social at the Atkins school the other evening.

Jack Weidner has purchased the Ploger farm, where we expect to see him set up housekeeping in the near future.

We are pleased to hear that Mr. Holmquist is recovering from his recent illness.

Mr. Elton Shantz and Miss Edna Shantz of Carstairs spent Saturday afternoon and Sunday with Miss Say Miller.

Don't forget the social in Rugby school house on Monday night next, February 3rd, under the auspices of the U. F. A. A varied entertainment will be given besides some good addresses, so you cannot afford to miss this event. No charge will be made but the ladies are requested to please not to forget to bring some eatables as there will be a lot of hungry men present. There will be no dancing.

Good Seeding

Under the appropriate title "Good Seeding," the Better Farming Association of Winnipeg have issued an attractive booklet written by Prof. S. A. Bradford, deputy minister of agriculture for Manitoba. It is being sent free of charge to all farmers who are sufficiently interested to send in their names.

Prof. Bedford needs no introduction to the farmers of western Canada. Prior to assuming his present office he was professor of Field Husbandry at the M. A. C. It was, however, as superintendent of the Dominion Experimental farm at Brandon, Man., that Prof. Bradford made his greatest contribution to farming in this country. Needless to say in dealing with the timely subject of "Good Seeding," he has drawn upon his thirty years of experience, which peculiarly qualifies him to deal with it.

This Better Farming organization was formerly the Correspondence School of Scientific Farming, but it has widened its province and while aiming to give the maximum return at the smallest outlay is not a big money making organization. As intimated above there is absolutely no charge made by Prof. Bradford's booklet, "Good Seeding." It will be sent free, postage prepaid, to farmers who are interested enough in "making good" to ask for it. It is not being cheapened by being sent broadcast. You've got to ask for it. We would advise you to do so. Send your name and address to "The Better Farming Association," 4th floor, Bell Block, Winnipeg, and you will get a copy.

AWFUL DEATH TOLL OF SNAKES IN INDIA

According to a report published in Simla the number of wild animals destroyed in India last year was 25,846, as compared with 19,282 the year before. This total included 1,428 tigers, 5,352 leopards and 4,251 wolves. Nearly 172,000 snakes were destroyed, more than twice as many as in any previous year.

This increase is largely accounted for by the offering of rewards by the Burma Government. That this action was necessary is proved by the fact that in one area the paddy fields were so snake infested that their cultivation was impossible.

Altogether 1,947 persons were killed by wild animals and 24,364 by snakes. The number of cattle killed by wild animals was 91,709, and by snakes 10,533.

With regard to snake bite of human beings it is said that the use of Sir Lauder Brunton's anoints is reported in a number of cases to have been successful. As in previous years, however, the statistics relative to the successful use of this instrument can only be accepted with reservations.

SAY!!

DO YOU KNOW WHO I AM?

WELL, IF YOU DON'T, ASK SOMEBODY

I'VE COME HERE TO STAY A FEW YEARS AND TELL YOU WHERE TO BUY HALF A BAZAR AND THINGS.

I'LL DO SOMETHING DIFFERENT EACH WEEK. LOTS OF MY YOUNG FRIENDS ARE GOING TO CUT ME OUT OF THE PAPER EACH WEEK AND MAKE A SCRAP BOOK. YOU'LL FIND THIS LOTS OF FUN.
